Summary (section 1/2)

Location of suspect texts in the document :

Included in the suspicious text score :

Similarities

24%

Syntactics 13% Semantics 11%

Passages with similarities to sources found in different collections.

AI detection

5%

Texts with stylistically similar formulations to AI-generated text.

This rate is an indicator, not proof. Check with the author that he/she has mastered the knowledge mentioned in the document.

Unrecognized languages

3%

Passages in which some of the vocabulary used is not part of the language dictionary. This may be an attempt by the author to modify the text to make detection impossible.

Not included in the percentage of suspicious texts :

Texts between quotes

<1%

Passages between quotation marks, often revealing a quotation.

Sources of similarities (section 2/2)

Similarities

24%

Passages with similarities to sources found in different collections.
